Mission Statement:	The purpose of KidneyTexas, Inc. is to provide funding to improve the methods of treatment, the search for a cure and prevention of kidney disease and other kindred or contributory diseases; and to develop more adequate provision for the care of persons suffering from such diseases.
Statistics:	Debilitating kidney diseases impact approximately 20 million people in the United States today. Groups at high risk include African Americans, Hispanics, senior citizens and people with diabetes. In Texas, there are over 30,000 people on dialysis and 4,000 on a transplant list. The number of patients on dialysis is anticipated to double this decade.
History:	Since 1999, the dedicated volunteers of KidneyTexas, Inc. have worked in tandem with our generous underwriters to raise over \$2.1 million for local efforts to improve the ability to diagnose and manage kidney disease.
2009 Distributions of Funds:	Children's Medical Center of Dallas, UT Southwestern Medical Center at Dallas, The PKD Foundation, National Kidney Foundation and Camp Reynal
